Erklärungen:

- Kursiv = ergänzende Infos, bei Bedarf
- Wenn die Gegenstation ziemlich leise ist, dann eher dreimal wiederholen und keine Stationsbeschreibung oder Wetter.
- Verabschiedung oft zwei bis dreimal
- manchmal wird nur Rapport und der Name ausgetauscht und dann gleich Verabschiedung
- In Klammern: machen manche auch in der Art

DM5LR here is DL8DYL (DL8DYL)

DL8DYL this is DM5LR – thank you very much for your call Good evening your report is Five and Nine, Five and nine, strong signal my name is Lutz Lutz like Lima Uniform Tango Zulu Lima Uniform Tango Zulu my QTH is Kamenz Kilo Alpha Mike Ecko November Zulu (alternative: Near Dresden) How did you copy me? Mike back to you DL8DYL from DM5LR

DM5LR from DL8DYL Good evening dear Lutz your report is also Five and Nine plus 20dB, very nice signal my name is Irina India Romeo India Nancy Alfa and my kju tie ätsch is north of Dresden Mike back to you DM5LR from DL8DYL

DM5LR for DL8DYL Many thanks Irina for the nice report working conditions here: an ICOM 7400 and a homebrew power amplifier with about 400 Watts output.... I am using a 3 element 3 band beam [windom, dipole, oder was auch immer] the weather here is nice and sunny [maybe a little bit too hot] with 33 degrees celcius [bei Amis kommt da auch mal Fahrenheit] Mike back to you DL8DYL from DM5RL

DM5LR from DL8DYL thanks for the information Lutz I have a Yaesu FT3000 as transceiver with 100 watts barefoot running into a Groundplane HF9 from Butternut. This antenna is build for 80 to 6 meters. We have a cloudy sky and it looks like some rain is coming. Mike back to you DM5LR from DL8DYL

DL8DYL from DM5RL Irina, thanks for all the information. I will send my qsl 100% sure via the bureau! Hope to see you again and thanks for the QSO! 73 and bye DM5RL

DM5LR from DL8DYL Lutz, many thanks for the qso to you Will send my qsl via bureau as well! Hope to meet you again! 73 and 88 from DL8DYL

88 from DM5RL

Bye, bye
