covered polycarbonate, color  
printed (200x100mm)

## WAE DX Contest

# What has changed since 2019 ?

- 000-serials only, if it is a new multi
- BY-districts 0 – 9 as separate multis

# AND

a completely new software for logcheck was implemented by Michael, DL6MHW !!!!!!!!!!!

# WAE DX Contest

## Logcheck-software – new features

Completely new GUI

New sort functions (QTCs, errors, % of checked QSOs e.a.)

Reverse logs / virtual logs

Tables for scores claimed vs raw or final vs raw

Crosscheck with BNetzA-database (all german calls issued by the authorities)

# WAE DX Contest

## Logcheck-software – new features (2 of 2)

New habit and new data in UBNs  
REDO-function for the logcheckers

# WAE DX Contest

**As usual, new features are causing new problems**

**new problems are causing new bugs**

**new bugs have to be identified and fixed**

**if one bug is fixed, you have to check,  
whether your new features are still working**

**If the new features are working, you have to check,  
whether these features are delivering sustainable  
results.....**

**....if not, you wasted a lot of your time for nothing....☺**

# WAE DX Contest

## What might change in the future ?

- if IARU-Region1 will set new regulations for the contest-free-segments, WAE DX-Contest will follow these new regulations
- introduction of overlay-classes for remote stations or remotely working operators

## And what else.....?

- **Paul, DF4ZL (head of DARC Contest Board) did a great job, facelifting the internet pages for all contests of DARC**
- **He invoked many pages, which got lost, when the new CMS for the DARC website was installed.**

**WAEDC-archive is still alive !**

## WAEDC 2022 – Please Get On

WAEDC always second weekend in August,  
September and November:

CW: 13. – 14. August

SSB: 10. – 11. September

RTTY: 12. – 13. November

**... be ready for QTC traffic!**

# WAE DX Contest

Thank you !

On behalf of the entire WAEDC-  
team

73 de Peter John, DL7YS

WAE-Contest-Manager
