WAE - 68th Session

- **DL6MHW CW-logcheck and webcheck-Software**
- **DL7YS SSB-logcheck and contest manager**
- **DJ4MH (ex) RTTY-logcheck and plaques-design**

After more than 10 years of hard work for the WAE-community, DJ4MH, Marco Holleyn, left the WAE-team

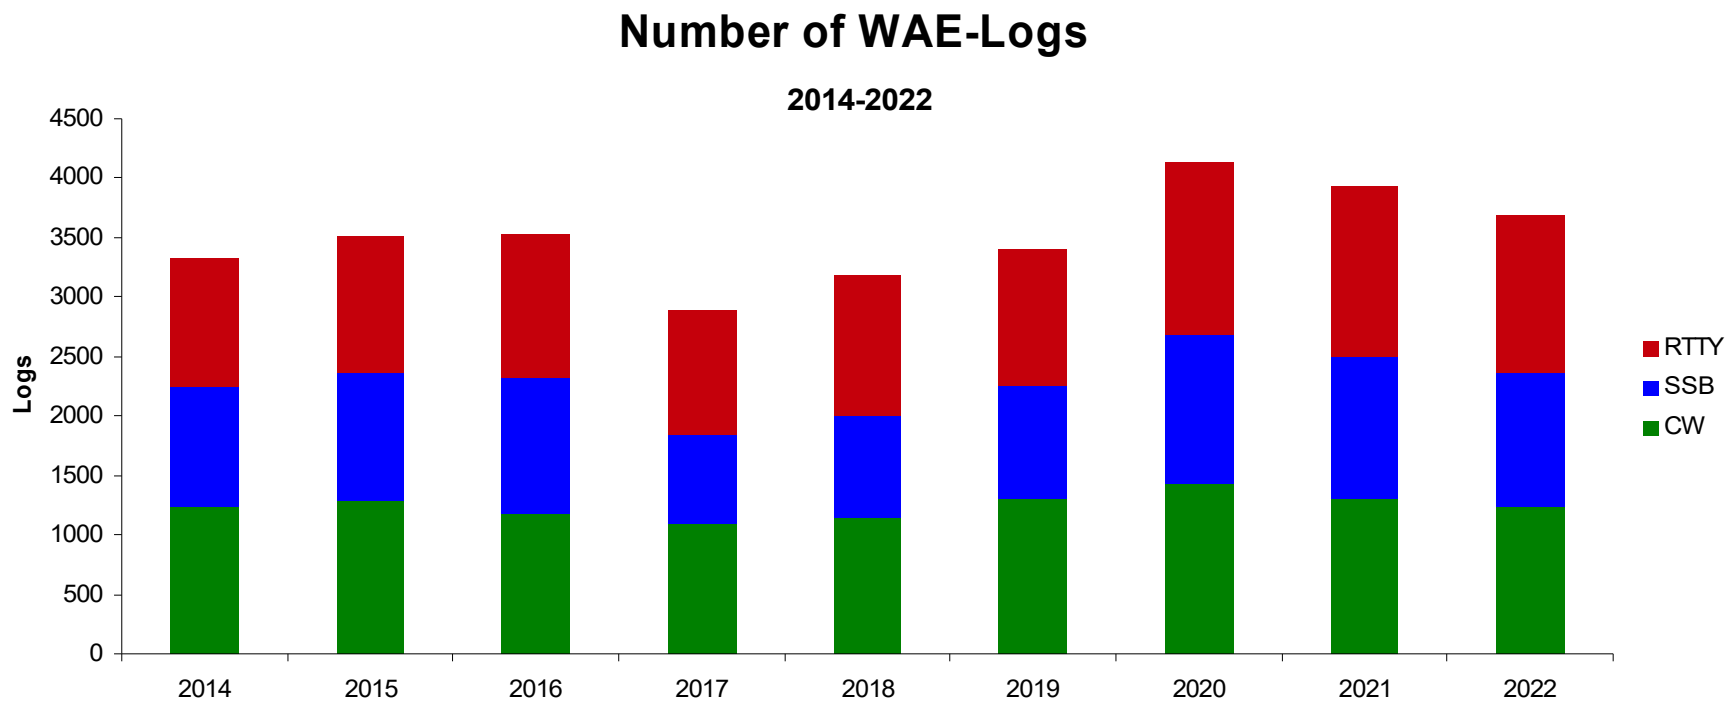

On behalf of the DARC and the WAE-community, we thank Marco for hundreds of hours he invested in WAE

WAE - 68th Session

Software

- the new logcheck-software (thanks to Michael, DL6MHW !!!) with new features works fine
- for time- and QRG-errors now separate checklists are implemented (400 – 1000 errors per WAE detected and allocated)
- new deltalist as a „magnifying glass“ for the logcheckers fully implemented
- ongoing debugging (DL7YS<>DL6MHW)

WAE - 68th Session

- **DQ - none**
- **EW5A (CW und SSB) – signal quality was under investigation (but problems due to data crash SDR)**
- **contestfree segment – situation improved, more and more acceptance by the participants**
- **few issues with the deadline**

WAE - 68th Session

Future

- **improvements of SDR-recording hardware**
- **questionnaire for remote support, YLs and rookies**
- **new sponsorship for WAE plaques**

WAE - 68th Session

Future

**For the upcoming
WAE-CW session 69 in 2023,
we won CW-OPs to be
sponsor for the WAE-plaques !**

**Wooden plates with metal
engravments for all
winners of 2023 WAE CW**

Thanks to CW-OPs !

WAE - 68th Session

Future

In the past years, we realized, that participants did sent less pictures (rigs, antennas, OPs) and comments to the soapbox

So let me kindly ask, to bring this back on track, that we will have more infos or pics to share within the WAE-community
